

## INTERMIN INTERNATIONAL MEETING: THE SKILLS NEEDED IN THE MINING SECTOR IN THE XXI CENTURY

International Network of Raw Materials Trainings Centres (INTERMIN)

<http://interminproject.org/>

INTERMIN is an international network formed by training centers, educational and research institutions of the European Union, and their counterparts in other countries.

The objective of the network is to improve the development of the skills and knowledge needed by the raw materials sector (exploration, extraction, processing and recycling), identifying the knowledge gaps and the training required by the companies.
