

# International Network of Raw Materials Training Centres (INTERMIN)

WP 3: Towards enhanced training  
programmes

**Response**

# Response

## Response

Aim:

Accelerate the adaptation of existing training programmes and the development of new training modules addressing immediate and emerging industry needs

Duration:

Nov 2018 - Jul 2021

WP Leader:

EFG

Other beneficiaries:

**12** (IGME, EGS, BRGM, ASGMI, LPRC, UPM, MUL, CCOP, AGI, UQ, PGI-NRI, SGU)

Tasks/Deliverables:

3/5

## Task 3.1: Definition of reference points and best practices

Beneficiaries: **EFG**, BRGM, UPM, UQ

### Context

- Hybrid, more complex career pathways are emerging, driven by changes in technology and social systems
- Increasing importance of vocational training programs and CPD

### Objective

- Setting an international qualification framework for the raw materials sector (D3.1)

### Approach

- Combination of the two European Qualifications Frameworks, advancing tailored metrics and reference points for quality assurance and international recognition of training on raw materials topics (D3.2)
- Definition of best practice guidelines for training in the raw materials sector (D3.3)

## QF-EHEA

• Higher education • May 2005 • Agreement between national ministers of higher education • 47 countries • 3 cycles • End-of-cycle descriptors • Verification of compatibility (self-certification)

## EQF-LLL

• Lifelong learning • April 2008 • Recommendation of EU Parliament & Council • 37 countries • 8 levels • Level descriptors • Referencing report (& peer commentary by EQF advisory group)

## 5 strengths of the EQF referencing process

1. the information is public
2. it is validated by competent authorities
3. it is relevant and transparent
4. it can be compared
5. it generates trust

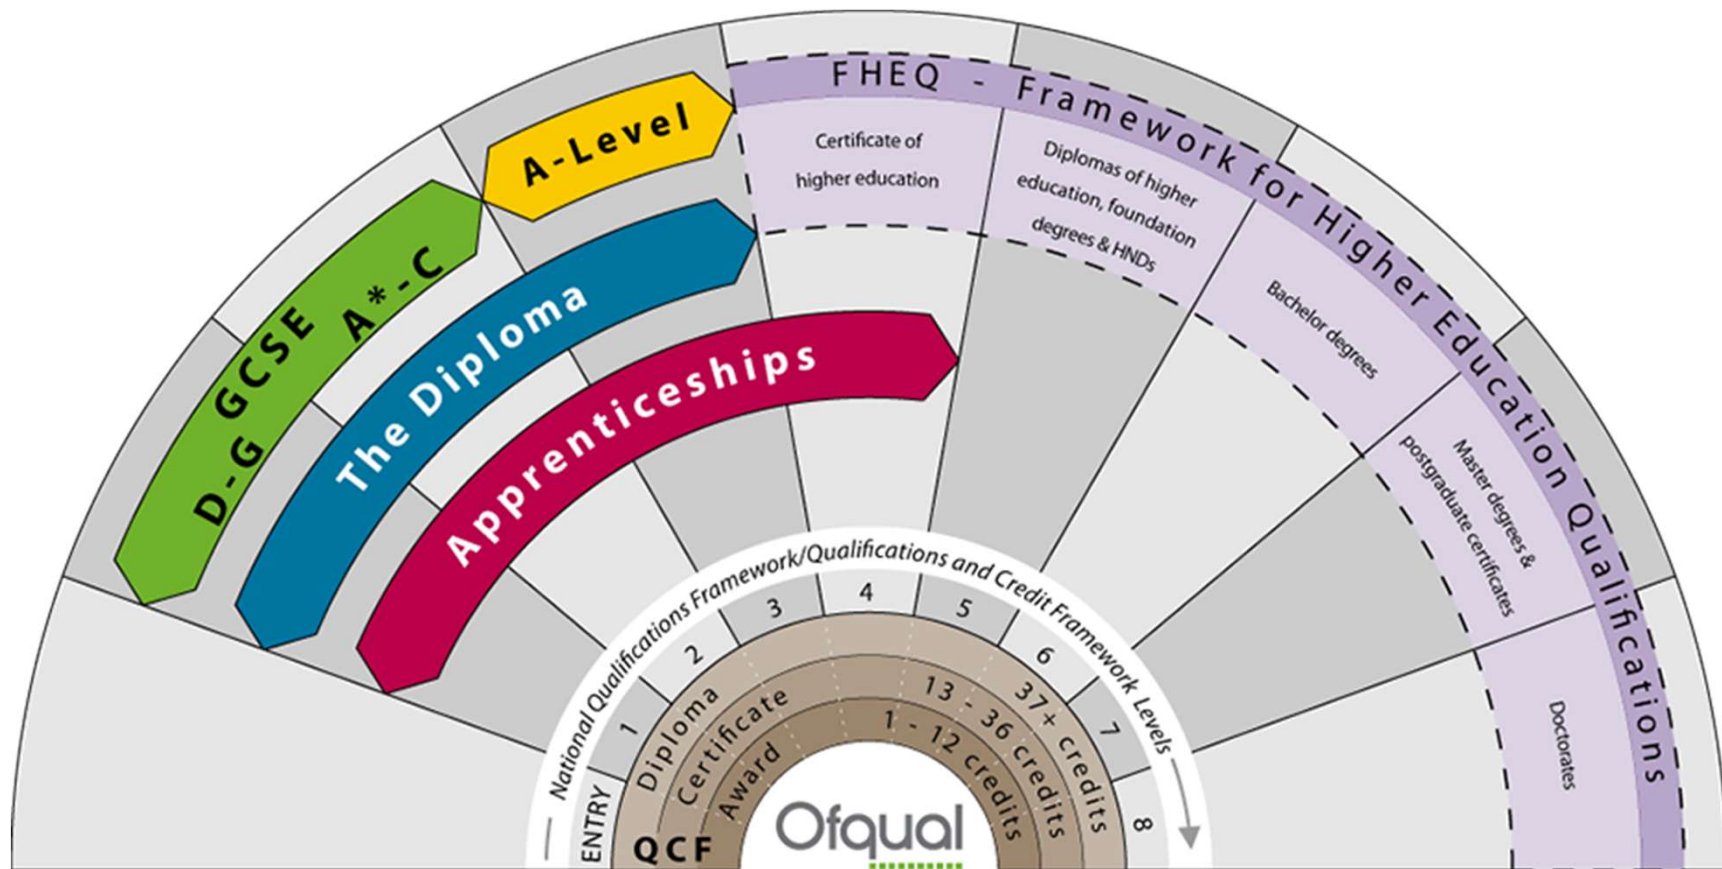

## EQF and the world

- EQF technical comparability project with Australia, New Zealand and Hong Kong, 2014-16
- QFs in the Lisbon Recognition Convention
- European and Asian Recognition conventions bridging declaration 2013
- UNESCO global reference levels following the Shanghai consensus 2012

- Setting an international qualification framework for the raw materials sector (D3.1)
- Advancing tailored metrics and reference points for quality assurance and international recognition of training on raw materials topics (D3.2)
- Best practice guidelines for training in the raw materials sector (D3.3)

## Task 3.2: Driving knowledge transfer and adaptation of existing training program practices

Beneficiaries: **BRGM**, UPM, EFG, AGI, UQ, SGU

### Context

- Introduction of new topics into existing training programs required
- Based on the results of WP2

### Objective

- Close skill-gaps and enhance existing education and training programs

### Approach

- Action Plan to close skill gaps and enhance existing education and training programmes (D3.4).

## Task 3.3: Advancing joint international technical and vocational training programs

Beneficiaries: **EFG**, IGME, EGS, BRGM, ASGMI, UPM, MUL, CCOP, AGI, UQ, PGI, SGU

### Objective

- Develop cooperation strategies between training centres

### Approach

- Mutual recognition of training programmes, assisting the development of interchangeable training modules
- [Creation of international joint training programmes for the raw materials sector \(D3.5\)](#)

# Response

## 5 deliverables:

D3.1 International qualification framework for the raw materials sector (M16, EFG);

D3.2 Report on tailored metrics and reference points for quality assurance and international recognition of training on raw materials related topics (M18, EFG);

D3.3 Best practice guidelines for training in the raw materials sector (M18, EFG);

D3.4 Action Plan to close skill gaps and enhance existing education and training programmes (M28, BRGM);

D3.5 Joint training programmes for the raw materials sector (M36, EFG).
